

Tothora^{by JOSEP VERA}
passion for time

In **Tothora** we design and manufacture by hand our clocks, minimalist and unique forms, asymmetrically displacing hours to one side, transforming them into unique pieces we want to be part of your home or office. Different clocks for different spaces, this is our maximum, for this, Josep Vera creator of them, signs by hand each one, certifying its authenticity.

Wood is the material selected to make our clocks, and with it, we create and mold time sculptures. 100% natural wood coming from countries with controlled logging of forest reforested, thus ensuring a policy of sustainability of our forests.

New finishes and colors, to mark the trends of the future.

Clocks made entirely in Barcelona, with German Quartz movement, with exceptional reliability and silence that let you enjoy the time in a different way.

Tothora, passion for time.

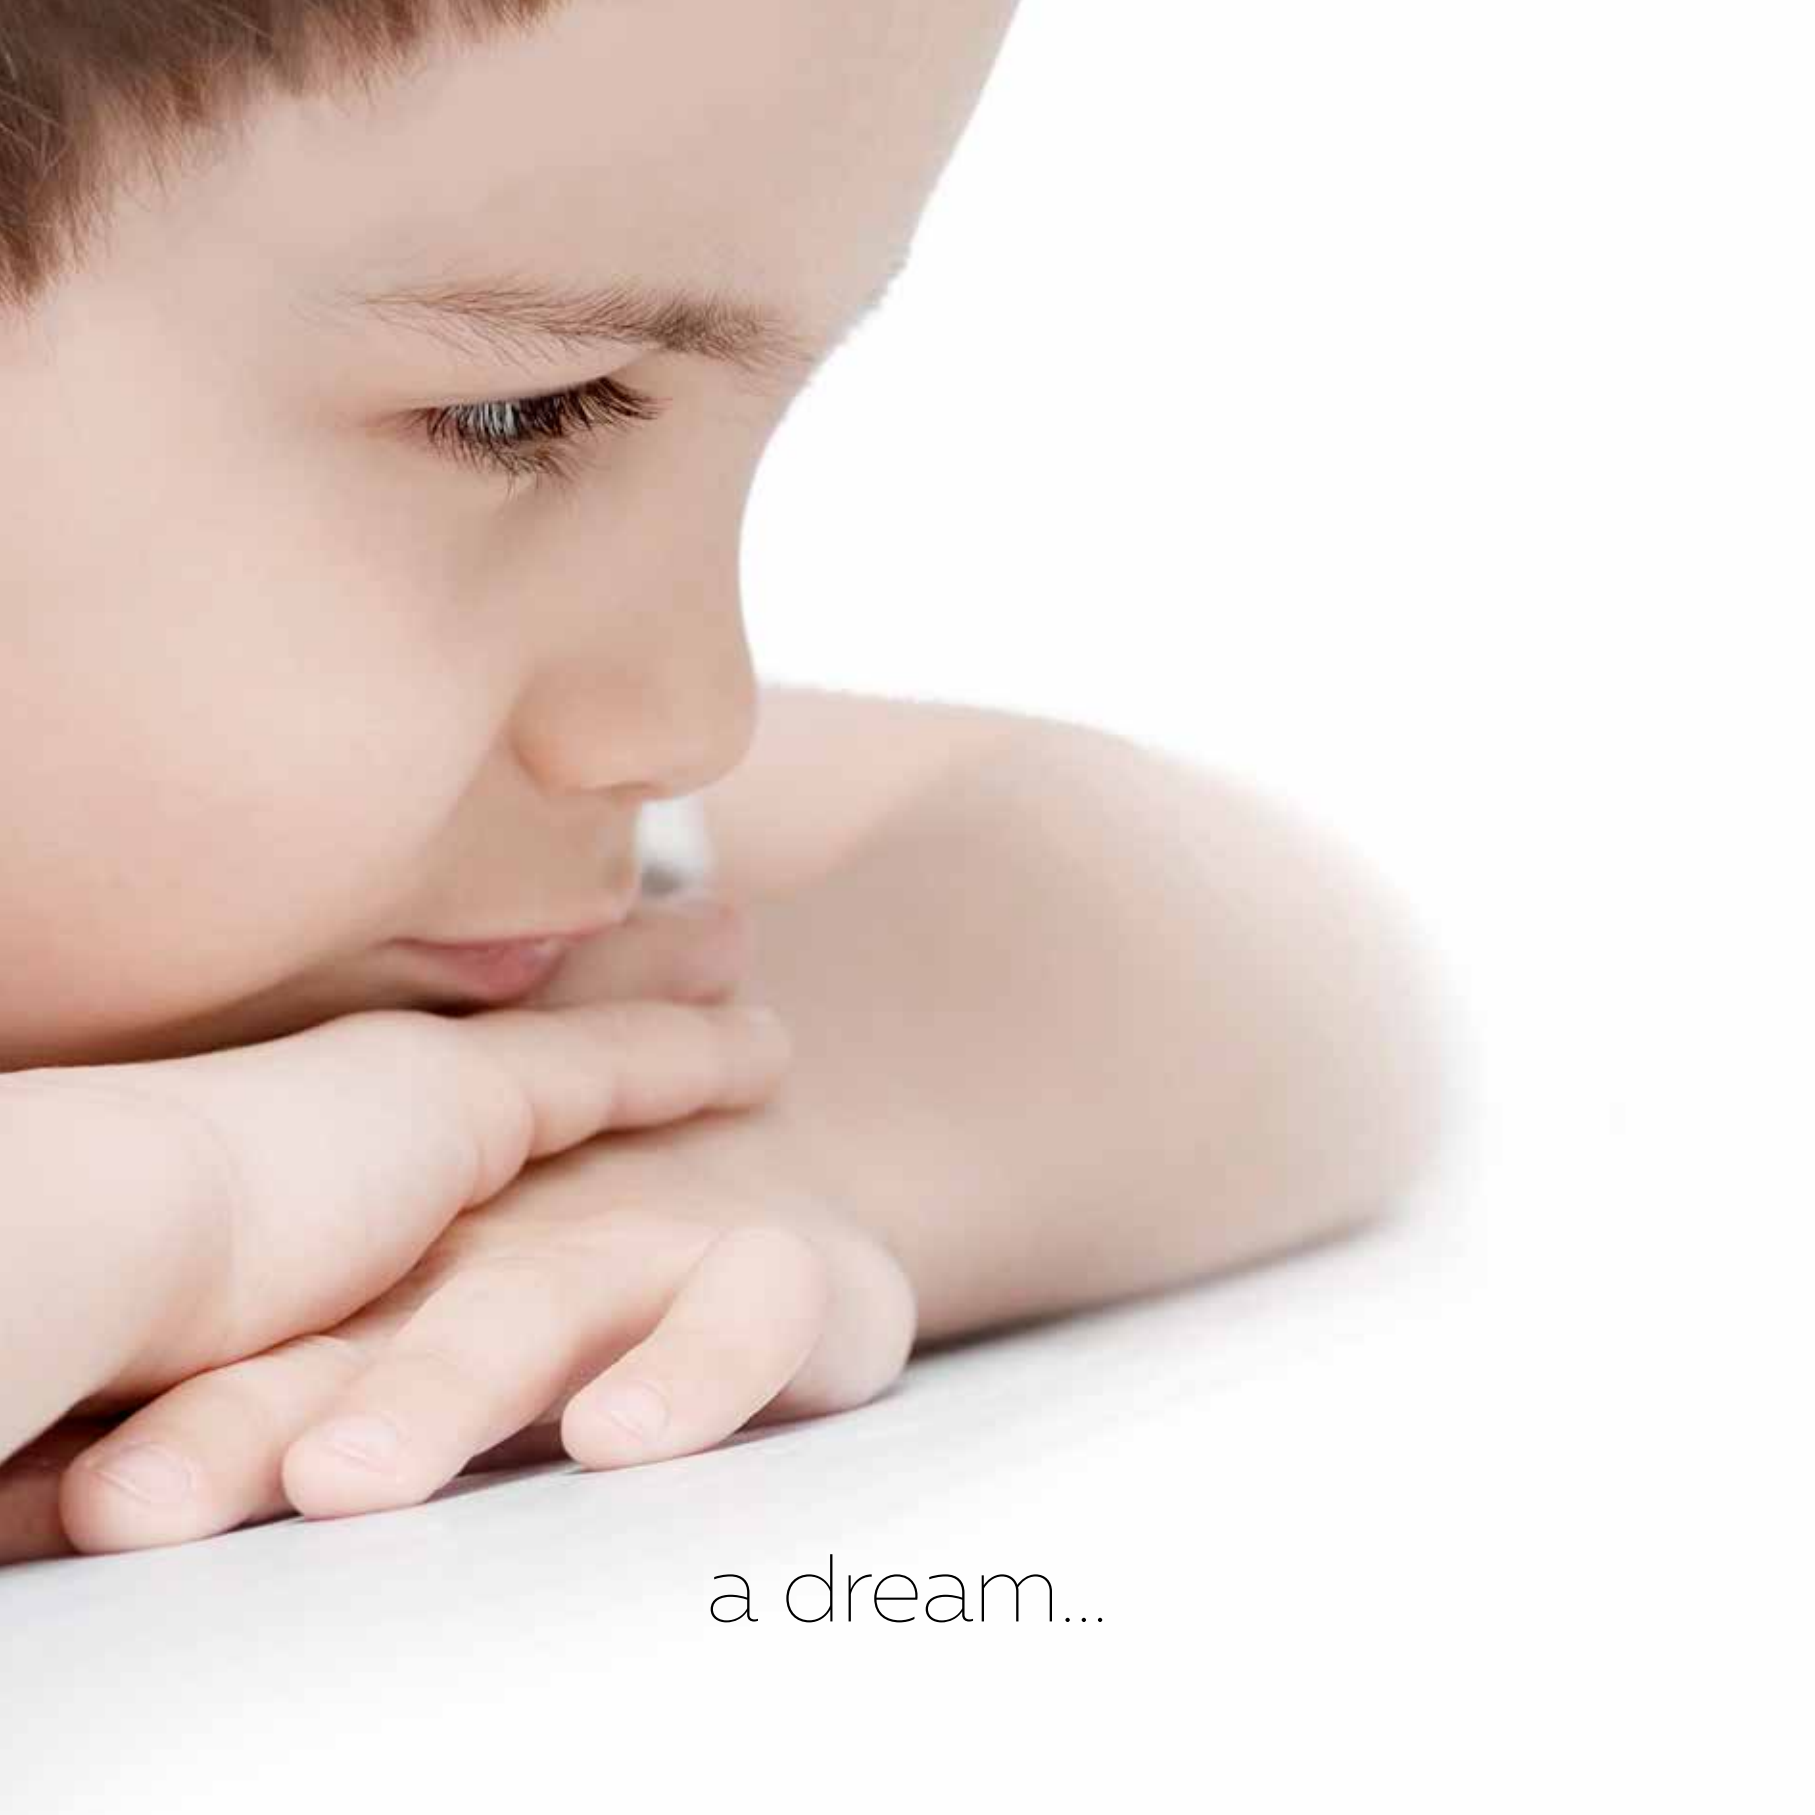

100% NATURAL WOOD
